## WHAT'S NEW ON IRENE PROJECT?

The project “IRENE – Increase the empowerment of adults and migrants with specific learning disorders” uses virtual technologies and realities to help adults learn a foreign language.

In these difficult COVID-19 times, the project partners keep up the good vibes and continue working at full speed on designing and developing the linguistic content for the E-learning multilingual interactive platform. IRENE learning materials are most suitable for adults between 18 and 35 years old who experience learning difficulties and are therefore discouraged from learning a foreign language. Nowadays Distance Learning has become really important in supporting SLD adults who are more fragile and might feel even more discouraged in the present situation.

## IRENE ADVENTURE

Currently the partners are working on developing an interactive computer game, where you take on the role of one of the characters travelling to a foreign country and have to navigate both the linguistic and cultural paradigms of the country, as well as explore its historical past and solve the ensuing mysteries! Can you find the wonders of the Dutch wetlands? Avoid trouble in Turin? Recall your Greek mythology? Hunt for Harald in the Discovery of Denmark? Take the challenge in Tralee? Overcome the Austrian obstacles and be Victorious in Valencia?

Co-funded by the  
Erasmus+ Programme  
of the European Union

The main characters in IRENE Adventure are students going on a week Erasmus exchange to different European cities. An Irish student goes to Turin, an Italian student goes to Rotterdam, a Greek student goes to Vienna, a Dutch student goes to Valencia, an Austrian student goes to Vejle, a Spanish student goes to Larisa and a Danish student goes to Tralee. The students are welcomed at the train station of the city by their friends, visit different places together, go to shops and buy things, have dinner at their host families, talk about their lives, learn new things and have an exciting time together!
